## Preparing for the workshop

Part 1 – Acrylic grounds:

All required materials are available. If you like you can bring your own intaglio tools.

We are working in the plate size 12,5 x 20 cm.

Part 2 – Photopolymer Film:

If you want to use photographs/photocopies/computer out-prints, please bring these copied or printed as positives on transparent paper or foil (postcard size). Please take care that these are not too „dull“ – the quality of the print depends on the quality of the stencil. At least one stencil should show comparably clear black and white tones. For a fine black-and-white photographic positive, we recommend to order a halftone positive in a photo studio.

We are working in the size 10 x 15 cm or 12,5 x 20 cm.
